     87  +    </div>
86   88
     89  +
87   90      <div class="form-group">
88   91          <div class="col-md-offset-2 col-md-10">
89   92              <input type="submit" value="Save" class="btn btn-default" />
...  ...
```

2401   In the JPStudents create view, make the checkbox be inline with the textboxes above. See description.

Finished product:

2402 ensure that the search button embedded in the search input field on the StudentIndex view of the JPApplications controller actually submits the search value and filters the records displayed

Changeset 2636: 2402 - Ensures the search button embedded in the StudentIndex view of the JPApplications controller submits search values and filters records.

```
StudentIndex.cshtml  +1  -1
$/NewLMSJobBoard/JobPlacementDashboard/JobPlacementDashboard/Views/JPApplications/StudentIndex.cshtml

...  ...
30   30                  <div class="input-group col-md-12">
31   31                      <input type="search" name="SearchString" class="form-control input-lg" placeholder="Company Name" />
32   32                      <span class="input-group-btn">
33   -                            <button class="btn btn-info btn-lg" type="button">
     33  +                            <button class="btn btn-info btn-lg" type="submit">
34   34                              <i class="fa fa-search"></i>
35   35                          </button>
36   36                      </span>
...  ...
```

2248 - update the date in the JPLatestContact table for a specific user when their email address is one of the emails included in the list that is pulled with the Export button in the Index view of the JPStudentRundown controller

Changeset 2679: 2248 - Updated the functionality for the export button to target the ApplicationUserID rather than the JPStudentID when updating latest contact.

Changeset 2683: 2248 - Cleaned up changes made to the ExportCVS method and added comments to explain process.

Changeset 2639: 2383 - Aligned column values to be in line with the table headers on the Index view of the JPHires controller.
